

WORK-AT-HEIGHTS (WAH) COURSE FOR MANAGERS (Integrated) VERSION 1.1

Under Workplace Safety and Health (Work-At-Heights) Regulations, it shall be the duty of the responsible person of any person who carries out or is to carry out any hazardous work-at-heights to apply for a Permit-To-Work (PTW). *Under the requirement for Permit-to-Work (PTW), a competent authorised manager is required to evaluate all WAH activities before approving the PTW for WAH in the workplace. Hence, such authorised manager must be trained and qualified in order to fulfil the above requirement.*

Project Managers, Project Engineers, WSH Officers, WSH Coordinators or equivalents who are required or appointed to be an authorised manager to evaluate work-at-heights (WAH) activities before approving the Permit-To-Work (PTW) for WAH in their workplaces.

The aim of the course is to provide course participants with the requisite WAH knowledge to manage work-at-heights activities so that work is carried out properly and safely.

Course Overview

At the end of the course, participants will be able to:

- Identify, explain and apply the relevant Workplace Safety & Health (WSH) legislations / Approved Code of Practice / Singapore Standards applicable to Work-at-Heights (WAH).
- Identify and explain the various roles of each stakeholder, and their responsibilities in maintaining a safe and healthy workplace for all.
- Conduct risk assessment for WAH and implement preventive measures related to WAH
- Review the necessary fall prevention/protection control measures for the effective implementation of a Permit-to-work (PTW) system.
- Establish and implement a Fall Prevention Plan (FPP) specific to the worksite / workplace
- Establish and implement a site management system for oversight and monitoring of WAH risks
